

Session Program

18-22 May 2025

CEC/ICMC 2025 Abstracts & Technical Program

C30r4B - Large Scale Cryogenic Systems VII: Commissioning

Peppermill Reno
2707 S. Virginia St. Reno, NV 89502

Wednesday 21 May

16:15

C3Or4B - Large Scale Cryogenic Systems VII: Commissioning

Session | Location: Capri 2/3

16:15–16:30

C3Or4B-01: Operation of CERN's major tests facility with upgraded cryogenic infrastructure for superconducting magnets, power links, inner triplets String and radio-frequency cavities for HL-LHC

Speaker

Remi Mauny

16:30–16:45

C3Or4B-02: Upgrade of the CERN cryogenic test facility for the HL-LHC superconducting magnets and superconducting links

Speaker

Olivier Pirotte

16:45–17:00

C3Or4B-03: Performances of the JT-60SA cryogenic system in the integrated commissioning test

Speaker

Kazuya Hamada

17:00–17:15

C3Or4B-04: Commissioning results of the ESS cryogenic moderator system using helium

Speaker

Dr Hideki Tatsumoto

17:15
