Update on ZEUS preserved data usage

Wednesday 2 October 2024 16:00 (20 minutes)

The data of the ZEUS experiment at HERA and their usage have been converted to “preservation mode” in 2012, and new physics results have continuously been published from these data since then. A brief update will be given on the latest status of results, data and software access (e.g. switch to linux9), other related issues, and future plans.

Summary

Author: GEISER, Achim (Deutsches Elektronen-Synchrotron (DE))

Presenter: GEISER, Achim (Deutsches Elektronen-Synchrotron (DE))

Session Classification: Experiments and sites
