

# 48th HNFS meeting

**Meeting date:** 08/07/2024 11:00

**Participants:** Daniele Butti, Ubaldo Iriso, Stefano Mazzoni, Mirko Siano, Laura Torino

## Notes

- Mirko presents preliminary material on speckle project for FCC-ee in view of talk to be delivered at the next FCC-ee BI meeting on Monday 15 July. Stefano suggests focusing on the time planning/schedule and deliverables. **Mirko will circulate updated slides within a couple of days for crosschecks. Stefano will send out invitation to the next FCC-ee BI meeting.**
- Stefano asks when we can access NCD for tests. Ubaldo reports that this will be possible not earlier than beginning of next year (i.e. end of January 2025).
- Concerning FE21, order to purchase mono was sent, it will take approx. 9 months. Beamline likely ready by summer 2025. Stefano then suggests exploiting first half of 2025 to test new targets at NCD.

## Other

- Daniele was invited at the next ICFDT7 conference in Frascati in October. He will be delivering a talk on FCC-ee diagnostics and mention the speckle project.
- Ubaldo will go at the IBIC conference to present the work on numerical simulations.
- Ubaldo mentions that the LEAPS proposal unfortunately did not pass and will not be funded.

**Next meeting: August 28<sup>th</sup> at 10:00**
