What the hell is Zellij?
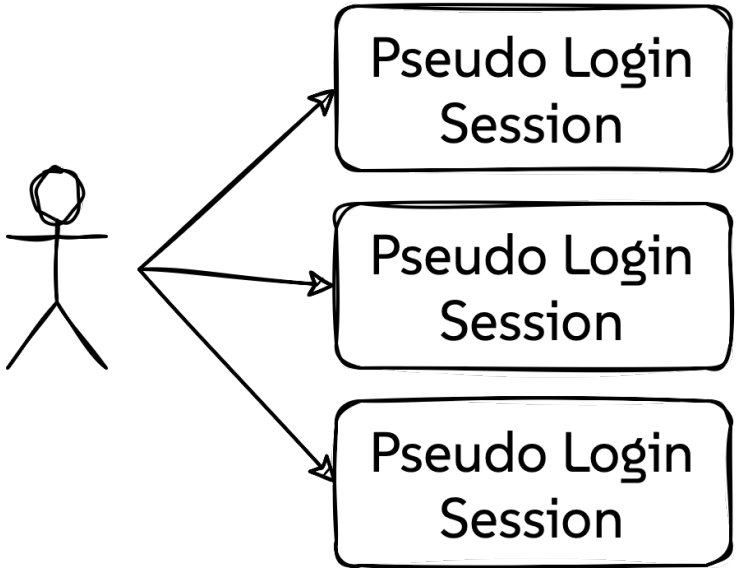

By Luis Pigueiras
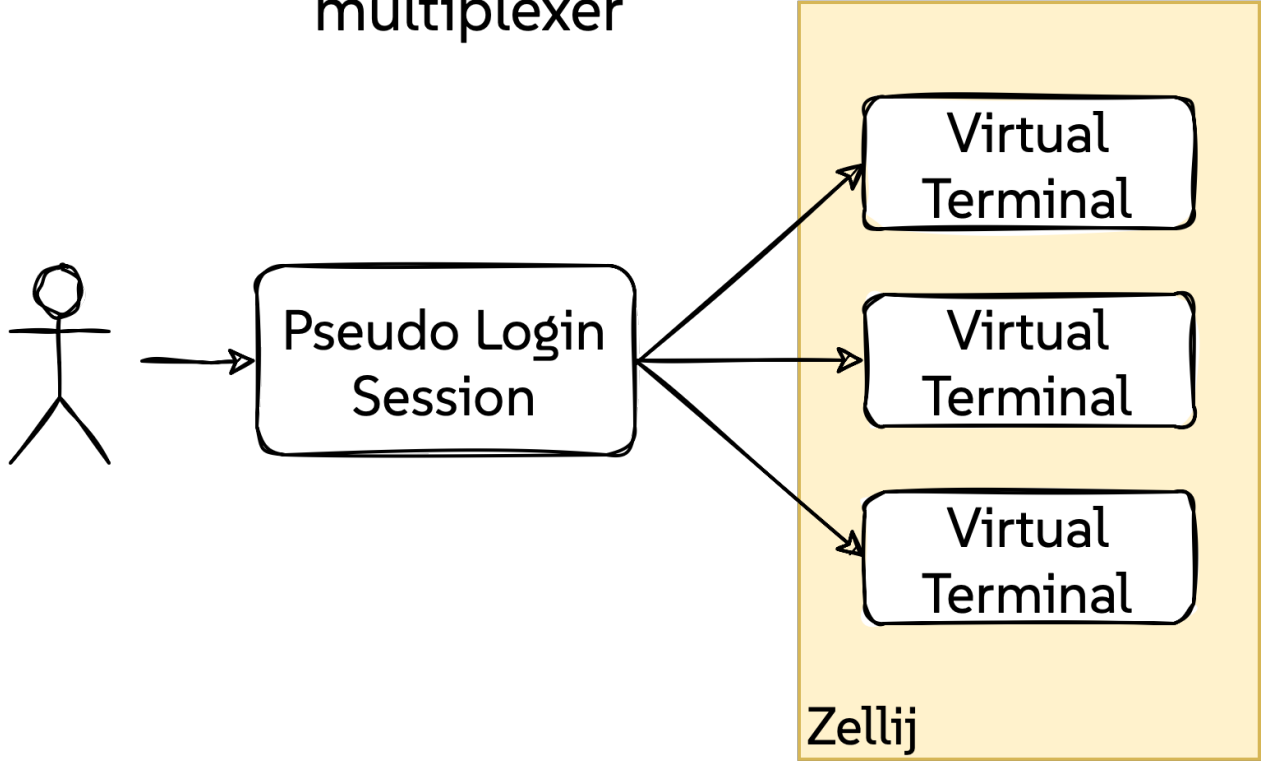

Zellij is a modern terminal multiplexer

But what is a terminal multiplexer?

Without multiplexer

Pseudo Login Session

Pseudo Login Session

Pseudo Login Session

With multiplexer

Pseudo Login Session

Virtual Terminal

Virtual Terminal

Virtual Terminal

Zellij

What's the difference between Zellij and Tmux?

Yes, Zellij it is easier for beginners ☺ (and it has some other features by default...)

Can we see how does it look like?

Sure, let's do a demo

If you want more information and features
https://zellij.dev

(You may want to check tmux mode, plugins, locked mode, scrolling features, pane resizing, layout swapping...)
