

# **VLVnT11 - Very Large Volume Neutrino Telescope Workshop (2011)**

**Wednesday 12 October 2011 - Friday 14 October 2011**

**Physics Lecture Hall**

## **Scientific Programme**

The workshop will focus on progress of neutrino astronomy, in particular the physics, technological and instrumental aspects of large-scale detectors in water or ice.

## **Plenary Session**

Plenary session

## **Physics, reconstruction and software**

Parallel session

## **Mechanics, deployment and vessels**

Parallel session

## **Calibration**

Parallel session

## **Photodetection and readout**

Parallel session

## **Deep-sea and deep-ice technologies**

Parallel session

## **Beyond Cherenkov light: Future options and technologies**

Parallel session

## **Computing and data**

Parallel session

## **NT user workshop**

Plenary session

# Industrial presentations

Plenary Session
