

# VLVnT11 - Very Large Volume Neutrino Telescope Workshop (2011)

## Wednesday 12 October 2011

### Parallel Session 3: Calibration - HH (14:00 - 16:00)

-Conveners: Kay Graf; Robert Lahmann

time	[id] title	presenter
14:00	[90] Calibration systems of the ANTARES neutrino telescope	GÓMEZ GONZÁLEZ, Juan Pablo
14:25	[42] Characterization of optical properties of the site of the ANTARES neutrino telescope	YEPES RAMIREZ, Harold
14:45	[60] NEMO-SMO acoustic array: a deep-sea test of a novel acoustic positioning system for a km <sup>3</sup> -scale underwater neutrino telescope	VIOLA, Salvatore
15:05	[85] Acoustic Calibration for the KM3NeT Pre-Production Module	ENZENHÖFER, Alexander
15:25	[91] Development of an acoustic transceiver for the KM3NeT positioning system	Ms LAROSA, Giuseppina
15:45	[41] Development of a compact acoustic calibrator for ultra-high energy neutrino detection	Ms ADRIÁN, Silvia
