

## **Session Program**

**Oct 12 - 14, 2011**

# **VLVnT11 - Very Large Volume Neutrino Telescope Workshop (2011)**

## ***Parallel Session 3***

Physics Lecture Hall, HG  
Hörsaalgebäude - Staudtstraße 5 - 91058 Erlangen - Germany

# Wed, October 12

2:00 PM

## Parallel Session 3: Calibration

**Session** | **Location:** Physics Lecture Hall, HH, Hörsaalgebäude - Staudtstraße 5 - 91058 Erlangen - Germany |  
**Conveners:** Dr Kay Graf, Robert Lahmann

14:00 - 14:25

### Calibration systems of the ANTARES neutrino telescope

**Speaker**

Juan Pablo Gómez González

14:25 - 14:45

### Characterization of optical properties of the site of the ANTARES neutrino telescope

**Speaker**

Harold Yepes Ramirez

14:45 - 15:05

### NEMO-SMO acoustic array: a deep-sea test of a novel acoustic positioning system for a km<sup>3</sup>-scale underwater neutrino telescope

**Speaker**

Salvatore Viola

15:05 - 15:25

### Acoustic Calibration for the KM3NeT Pre-Production Module

**Speaker**

Alexander Enzenhöfer

15:25 - 15:45

### Development of an acoustic transceiver for the KM3NeT positioning system

**Speaker**

Ms Giuseppina Larosa

15:45 - 16:00

### Development of a compact acoustic calibrator for ultra-high energy neutrino detection

**Speaker**

Ms Silvia Adrián

4:00 PM
