

Session Program

Oct 12 - 14, 2011

VLVnT11 - Very Large Volume Neutrino Telescope Workshop (2011)

Parallel Session 5

Physics Lecture Hall, HG
Hörsaalgebäude - Staudtstraße 5 - 91058 Erlangen - Germany

Wed, October 12

2:00 PM

Parallel Session 5: Deep-sea and Deep-ice Technologies

Session | **Location:** Physics Lecture Hall, HF, Hörsaalgebäude - Staudtstraße 5 - 91058 Erlangen - Germany |
Conveners: Patrick Lamare, riccardo papaleo

14:00 - 14:25

KM3NeT deep-sea cabled network: the star-like layout

Speaker

Rosanna Cocimano

14:25 - 14:50

The MEUST submarine infrastructure for neutrino astronomy

Speaker

Dr Claude Vallee

14:50 - 15:15

Specification of Underwater Fiber Optic Connectors for Neutrino Telescope systems

Speaker

Steven Thumbek

15:15 - 15:40

A vertical electro-optical data cable for KM3NeT

Speaker

Gertjan Mul

15:40 - 16:00

Assembly and Design of the Optical Modules for the NEMO Phase-2

Speaker

Dr Emanuele Leonora

4:00 PM
