

# VLVnT11 - Very Large Volume Neutrino Telescope Workshop (2011)

## Wednesday 12 October 2011

### Parallel Session 5: Deep-sea and Deep-ice Technologies - HF (14:00-16:00)

-Conveners: Patrick Lamare; riccardo papaleo

time	[id] title	presenter
14:00	[77] KM3NeT deep-sea cabled network: the star-like layout	COCIMANO, Rosanna
14:25	[63] The MEUST submarine infrastructure for neutrino astronomy	Dr VALLEE, Claude
14:50	[59] Specification of Underwater Fiber Optic Connectors for Neutrino Telescope systems	THUMBECK, Steven
15:15	[48] A vertical electro-optical data cable for KM3NeT	MUL, Gertjan
15:40	[35] Assembly and Design of the Optical Modules for the NEMO Phase-2	Dr LEONORA, Emanuele
