Cryogenics in LHC (10'+10')

Tuesday 10 December 2024 16:00 (20 minutes)

- IR8 cooling capacity and known limitations, available margins
- follow up on delaying of cryo valve opening (resulting in losses and dumps due to fast growing orbit oscillations, in 2023)

Presenter: NAYDENOV POPOV, Boyan-Kaloyanov (CERN)

Session Classification: Operation <-> Equipment
