

# WP1: Framework of the European Network of Research Software Quality

Graeme Stewart  
*CERN*

Jonathan Tedds  
*Elixir*

## Participants

*CERN, Elixir, UEDIN, CNRS-IJCLab, NLeSC, OpenAIRE, SKAO, UPM, CERTH, UvA, UniSalento, CU*

## WP1 Monthly Meeting

2024-08-28

**Funded by  
the European Union**

This project has received funding from the European Union's Horizon Europe Programme under GA 101129744 — EVERSE — HORIZON-INFRA-2023-EOSC-01-02

# Website

- We are putting in place a few website improvements
  - [Improved consortium page](#) (using Blowfish's cardView)
    - Each card links to a member page
    - If you have not yet sent a description of your institute to Sanje please do so!
  - [People page](#) (will also use cardView)
  - Some layout improvements for multi-columns

## Consortium partners

Find out who we are here.

The EVERSE project consists of 18 partners from organisations and institutes all across Europe. As a consortium we gather skills from all kinds of sciences that use programming for their research: astronomy and particle physics, photon and neutron science, environmental sciences, social sciences and humanities, and life sciences.

Follow the links to get to now us.

### Consortium

# Milestone M1.1

- We reached the first milestone for WP1:

**Table 3.1d: List of milestones**

#	Milestone name	WP	Due	Lead	Means of verification
<b>MS1.1</b>	Project website, newsletter and social media setup	WP1	M06	CERN	Demonstrator

- Demonstrator = it's there for the world to see, but Sanje has prepared an accompanying document
- Obvious for website and social media accounts, for the newsletter we will use the news feed, but the proper newsletter is still being planned
  - Evaluating various options, but we would like articles to be on the website as well as in an attractive PDF format

# WP1 Slide for Uppsala

- Fotis will present EVERSE in the session at the International Research Software Funders Workshop in Uppsala
- We have prepared a WP1 slide for him, which is in the [presentation](#)
  - Focus is on high-level goals and mid-term outcomes
  - Let Jonathan and me know if you have any comments or suggestions

## WP1: Overview of activities

- Establish the **EVERSE Network of Research Software Quality** (T1.1)
  - A meeting point for a Community of Practice for software quality
    - Open to individuals and organisations internationally
  - Will be an EOSC Expert Group on software
  - Help to shape best practices and get help and advice from like minded partners
  - Will host seminars, webinars and other events to promote and recognise software quality
  - The network is forming now, so we are very interested to work with any *early adopters*
- Reaching out to **Science Communities** (T1.1)
  - Showing the benefits of the EVERSE network and matching specific domain needs
  - Organisation of events such as hackathons to promote best practice and network involvement
- Links to **European, international organisations and industry** (T1.3)
  - Benefit from and reinforce existing policies and practice regarding software quality
  - Align and co-develop shared solutions and host common events

# Today's Meeting

<b>11:00</b>	→ 11:10	<b>Introduction</b> <b>Speakers:</b> Graeme A Stewart (CERN), Jonathan Tedds
<b>11:10</b>	→ 11:20	<b>Task 1.1 Update</b> <b>Speakers:</b> Graeme A Stewart (CERN), Marco Bartolini <a href="#">Task 1.1 Document</a>
<b>11:20</b>	→ 11:30	<b>ReSA/SFA Discussions and Social Media Habits</b> <b>Speaker:</b> Sanje Antona Fenkart
<b>11:30</b>	→ 11:40	<b>Task 1.2 Update</b> <b>Speakers:</b> Jonathan Tedds, Monica-Iona Abrudan, Tassos Stavropoulos
<b>11:40</b>	→ 11:50	<b>Task 1.3 Update</b> <b>Speakers:</b> Carlos Martinez (Netherlands eScience Center), Giacomo Peru
<b>11:50</b>	→ 12:00	<b>Discussion</b>

# Next Meeting

- 25 September, 11h CEST
- <https://indico.cern.ch/event/1450114/>

Meantime, for task specific meetings see Mattermost and Indico!
