## Cosmology and Long-Lived Particles

*Tuesday 3 June 2025 09:30 (25 minutes)*

In this talk, I will provide a (non-exhaustive) review of the connections between Long-Lived-Particles and both Baryogenesis and Dark Matter, touching upon Heavy Neutral Leptons and extended scalar sectors (from the baryogenesis side), and freeze-in and Conversion driven freeze-out mechanisms (from the dark matterside).

**Presenter:** NO, Jose Miguel (IFT-UAM/CSIC)

**Session Classification:** Theory and pheno II
