

Session Program

9-13 Dec 2024

3rd DRD1 Collaboration Meeting

Working Group 6: Detector production

CERN, 40/S2-C01 - Salle Curie

Thursday 12 December

09:00

Working Group 6: Detector production

Session | **Location:** CERN, 13/2-005 | **Convener:** Gabriel Charles

09:00–09:30

Status of the infrastructure for gaseous detector development at the FTD

Speaker

Markus Ball

09:30–10:00

Status of the GEM production and quality assurance at the FTD

Speaker

Tim Schuttler

10:00–10:30

Status of the ME0 detector production for the phase-II upgrade of the CMS muons system

Speaker

Dr Jeremie Alexandre Merlin

10:30–10:50

Coffee break

10:50–11:20

Detectors R&D and Applications at CIAE

Speaker

Xiaomei Li

11:20–11:50

New RPC facility

Speaker

Paolo Camarri

11:50–12:20

The MPGD production and R&D program at the University of Virginia for Jefferson Lab and EIC

Speaker

Nilanga Liyanage

12:20–12:35

Welded straws: technology development and performance studies at test beams

Speaker

Yerzhan Mukhamejanov

12:35
