

Session Program

27-29 Nov 2024

ISOLDE Workshop and Users meeting 2024

Recent Experimental Results II

CERN, 503/1-001 - Council Chamber

Thursday 28 November

16:00

Recent Experimental Results II

Session | Location: CERN, 503/1-001 - Council Chamber | Convener: Gianluca Colo

16:00-16:25

Pushing the limits of Collinear Laser Spectroscopy: Advancements in sensitivity and breakthroughs in the study of exotic nuclei at COLLAPS

Speaker

Peter Plattner

16:30-16:55

Measurement of the hyperfine anomaly in short lived radioactive nuclei: progress and outlook

Speaker

Mark Bissell

17:00-17:25

Testing the Standard Model with the WISArD Experiment

Speaker

Samuel Lecanuet

17:30
