

Nominally, assuming magnetic lengths are similarly centered in mechanical lengths

Ref. J. DiMarco, SSW_Zcenter_CM05_magnetPositionCompare_30Jul2024.pptx, July 30, 2024

For CM05, A15 is 1.5 mm closer to center,
 and A07b is 6.4 mm closer to center than the
 nominal 2.337 m

Ref. J. DiMarco, SSW_Zcenter_CM05_magnetPositionCompare_30Jul2024.pptx, July 30, 2024
