

Raising Hope and Scientists: Building School in Africa

Saturday 28 July 2012 14:50 (10 minutes)

The access to the scientific knowledge starts with raising youth kids in a friendly environment. We will introduce here the effort of a small foundation dedicated to build new school infrastructures in Africa. This effort was successful in Guinea, soon in Gambia, and has been initiated in Ghana.

Presenter: DARVE, Christine (European Spallation Source)

Session Classification: Forum & Outreach Day - July 28th
