

Session Program

5-11 Jan 2025

Quarkonia As Tools 2025

Exclusive physics

Centre Paul Langevin
Aussois, Vanoise Massif, France

Tuesday 7 January

08:30

Exclusive physics

Session | **Location:** Centre Paul Langevin, Aussois, Vanoise Massif, France | **Conveners:** Charlotte Van Hulse, Chris Flett

08:30–09:00 **Factorisation at high-energy quarkonium photoproduction**

Speaker
Chris Flett

09:00–09:30 **Diffraction PDFs**

Speaker
Vadim Guzey

09:30–10:00 **Quarkonium threshold production**

Speaker
Pierre Chatagnon

10:00–10:30 **Coffee break**

10:30–11:00 **Probing the odderon through heavy quarkonia at the EIC**

Speaker
Abhiram Kaushik Kaushik Badrinarayanan

11:00–11:30 **UPCs and far-forward detection**

Speaker
Ronan McNulty

11:30–12:00 **Far-forward detection at the EIC**

Speaker
Charlotte Van Hulse

12:00

16:30

Exclusive physics: round-table discussion

Session | **Location:** Centre Paul Langevin, Aussois, Vanoise Massif, France

16:30–17:00 **Q&A (Young scientists 15')**

17:00–19:00 **Round-table discussion: gap survival factors**

19:00
