

Session Program

14-18 Oct 2024

The 8th International Conference on Micro Pattern Gaseous Detectors (MPGD2024)

Session 3

Hefei

Monday 14 October

14:00

Session 3

Session | **Location:** Hefei | **Convener:** Yuxiang Zhao

14:00–14:30

Optical readout of MPGDs: applications and R&D (Invited speech)

Speaker

Florian Maximilian Brunbauer

14:30–14:55

GEM Detectors for the CMS Endcap Muon System: status of three detector stations

Speaker

Yanwen Hong

14:55–15:20

ATLAS Micromegas Performance Studies with LHC Run3 Data

Speaker

Simone Francescato

15:20–15:45

Study of signal formation in the ERAMs of T2K TPC

Speaker

Daniele D'Ago

15:45–16:10

Performances of a Medium-Size Boron-coated GEM detector for thermal neutrons at the ISIS Neutron and Muon Source

Speaker

Stephanie Cancelli

16:10
