

Session Program

14-18 Oct 2024

The 8th International Conference on Micro Pattern Gaseous Detectors (MPGD2024)

Session 9

Hefei

Wednesday 16 October

09:00

Session 9

Session | Location: Hefei | Convener: Shikma Bressler

09:00–09:30

China spallation neutron source and neutron detectors (Invited speech)

Speaker

Zhijia Sun

09:30–09:55

A novel technology for element-sensitive 3D tomography

Speaker

Xiao Zhao

09:55–10:20

New Mission Concept: a high precise MeV Gamma Telescope using TPC Technique read out with Micromegas

Speaker

Libo Wu

10:20–10:45

Development and Preliminary Results of a Large-Volume Time Projection Chamber for X-ray Polarimetry

Speaker

Fiorina Davide

10:45
