

Session Program

14-18 Oct 2024

The 8th International Conference on Micro Pattern Gaseous Detectors (MPGD2024)

Session 14

Hefei

Friday 18 October

09:00

Session 14

Session | Location: Hefei | Convener: Hongbang Liu

09:00–09:25 **SALSA: a new versatile readout ASIC for MPGD detectors**

Speaker

Neyret Damien

09:25–09:50

Progress on Readout Electronics for TPC for Large Collider Experiments

Speaker

Zhi Deng

09:50–10:15

GEM operation in Nitrogen based gas mixtures: opening new applications for X-Rays, UV-light and neutron detection with the use of environmental-friendly mixtures

Speaker

Gabriele Croci

10:15
