

Radiator gases in future Cherenkov detectors: Development, circulation and monitoring

Thursday 24 October 2024 16:30 (25 minutes)

Aspects related to the thermodynamic circulation of the gases will be presented. R&D needed for the development of radiator gases will be discussed.

Presenter: HALLEWELL, Gregory (Centre National de la Recherche Scientifique (FR))

Session Classification: Working Group 2 meeting (open to the whole DRD4 community)
