

Session Program

27 September 2024

WG1/WP1 Project proposal discussion - September Session

Proposal updates and presentations

Friday 27 September

14:20

Proposal updates and presentations

Session | **Conveners:** Heinz Pernegger, Jerome Baudot, Eva Vilella Figueras

14:20–14:40 **IP2I-TPSCo 65nm CMOS with high precision timing**

Speaker

Didier Claude Contardo

14:50–15:10

Evaluation of new process option(s) for large-fill factor HVCMOS sensors (Xfab) and Internal Gain Layer for HVCMOS sensors

Speaker

Heiko Christian Augustin

15:20–15:40 **CMOS Strip Chip for Future Tracking Detector (postponed to October)**

Speaker

Xin Shi

15:50–16:10 **MAPS developments at SLAC**

Speaker

Caterina Vernieri

16:20–16:40 **CASSIA - CMOS Active SenSor with Internal Amplification**

Speaker

Heinz Pernegger

17:10
