

Neutrinos@CERN, Physics Beyond Colliders and the ESPP 2026 Update

Guidelines for submitting input for the 2026 update of the European Strategy for Particle Physics

Cover page (1 page)

Each document submitted should carry a single cover page containing no more than the title, the contact person(s) and an abstract.

Comprehensive summary (maximum 10 pages)

The submitted document must be no more than 10 pages long (excluding the cover page) and must provide a comprehensive and self-contained summary of the input. It should address:

- scientific context,
- objectives,
- methodology,
- readiness and expected challenges,
- timeline,
- construction and operational costs (if applicable).

Back-up document

Additional information and details can be submitted in a separate back-up document, which can be consulted by the Physics Preparatory Group (PPG) if clarification on any aspects is required. But the back-up document is not a mandatory component of the submission.

Format and deadline for submission

The cover page and the comprehensive summary are to be submitted in portable document format (pdf) by 31 March 2025. The back-up document should have a cover page with the same title and contact persons and with the words "Back-up Document" added. A dedicated submission portal for both documents will be made available via the ESPPU website.

Distribution

All the documents submitted will be forwarded to the PPG and the European Strategy Group (ESG). Unless explicitly requested otherwise, they will also be made public. The option not to make a given document public will be available upon submission via the dedicated portal.

- **10-page input document**
 - scientific context
 - objectives
 - methodology
 - readiness & expected challenges
 - timeline
 - construction & operational costs
- **can be backed by longer document(s)**
 - (not guaranteed to be read)
- **advisable that projects prepare their own input**
- **deadline: March 31, 2025**
- **submission: <https://indico.cern.ch/event/1439855/>**

PBC and ESPP 2026 Update

- PBC in the process of preparing a summary document for ESPP update
 - Summary of all PBC-related projects
 - Dedicated discussions of FPF, NA61/SHINE, SBN, SHiP etc.
 - Dedicated neutrino physics section
 - Dedicated Hidden Sector section

PBC and ESPP 2026 Update

- PBC in the process of preparing a summary document for ESPP update
 - Summary of all PBC-related projects
 - Dedicated discussions of FPF, NA61/SHINE, SBN, SHiP etc.
 - Dedicated neutrino physics section
 - Dedicated Hidden Sector section
- Ideally, provide update of physics benchmarks (including new ones) as was done for previous Strategy Update
- Unrealistic/difficult due to short time

nu@CERN and ESPP 2026 Update

- To trigger discussion:
 - what are the plans of the various projects
 - have asked to have some short contributions following after this before discussion
 - is there a need/wish for “endorser”
 - is there a common theme/effort to be conveyed
 - should there be a common neutrino document
 - e.g., summary of all the projects discussed
 - who would take the lead in preparing it
 - what should be the message

The image consists of three main parts. At the top right is a blue rectangular graphic containing the CERN logo and the text "Physics Beyond Colliders". Below it is a white rectangular area with the text "CERN-PBC Report-2025-xxxx" and "author.email@cern.ch". To the right of this is a large red question mark. Below these is a white rectangular area with the text "Summary Report of the Neutrinos@CERN Study at CERN". At the bottom is a meeting agenda table titled "Wrap up" with a red arrow pointing from the text above towards it.

14:00	Wrap up	Claude Vallee
14:00 - 14:30	40/S2-C01 - Salle Curie, CERN	
15:00	Discussion and input to ESPPU	
16:00		
16:30	40/S2-C01 - Salle Curie, CERN	14:30 - 16:30
17:00	Summary document
