

The CERN Accelerator School  
is organising a course on

# BASIC ACCELERATOR PHYSICS & TECHNOLOGY 2025

STARTS 10 MARCH, 08:00

ENDS 14 MARCH, 17:30

[CAS.WEB.CERN.CH](https://cas.web.cern.ch)

This course provides the starter's knowledge to accelerator physics on an applied level, without the full theoretical coverage of the topics. This way, a subset of classical accelerator physics is covered, and the course can be followed without prior knowledge in the field. The course is non-residential with a duration of five days.

APPARTCITY

• 11, avenue des Sablonnières •

FERNEY-VOLTAIRE
