

Session Program

11 December 2024

13th MEDICIS Collaboration board

***Recent achievements within the
collaboration***

CERN, 40/S2-C01 - Salle Marie Sklodowska-Curie

Wednesday 11 December

10:30

Recent achievements within the collaboration: Recent achievements within the collaboration

Session | Location: CERN, 40/S2-C01 - Salle Marie Sklodowska-Curie

10:30-10:45

Rechelation of daughter nuclides from ^{212}Pb and ^{225}Ac with tailored chelators

Speaker

Dr Marc PRETZE

10:45-11:00

Experiences on Macropa for TAT with the perfect matched pair $^{203}\text{Pb}/^{212}\text{Pb}$

Speaker

Dr Constantin MAMAT

11:00-11:20

MED-015 - Sc radionuclide production and mass separation

Speaker

Edgars Mamis

11:20
