

Task Force on Training in accelerator science for Europe

Philip Burrows

University of Oxford

Director, John Adams Institute for Accelerator Science

Task force mandate

The task force should:

- Provide a framework for discussion of training needs + training provision
- Explicitly engage stakeholders across the broad accelerator community
- Provide links to other relevant communities (ECFA/detectors, LEAPS ...)
- Share knowledge/experience of training activities for common benefit
- Promote synergies + cooperation, and (where applicable) sharing of resources
- Identify skills shortages and needs for enhanced/augmented training schemes
- **Provide a strong training pillar for developing future bids to the EC**
- NOT re-invent or duplicate well-running activities (eg. at universities, CAS, JUAS ...)
