

DOMA General News

Johannes Elmsheuser, Katy Ellis
13th November 2024

Presentation at the LHCC meeting next week

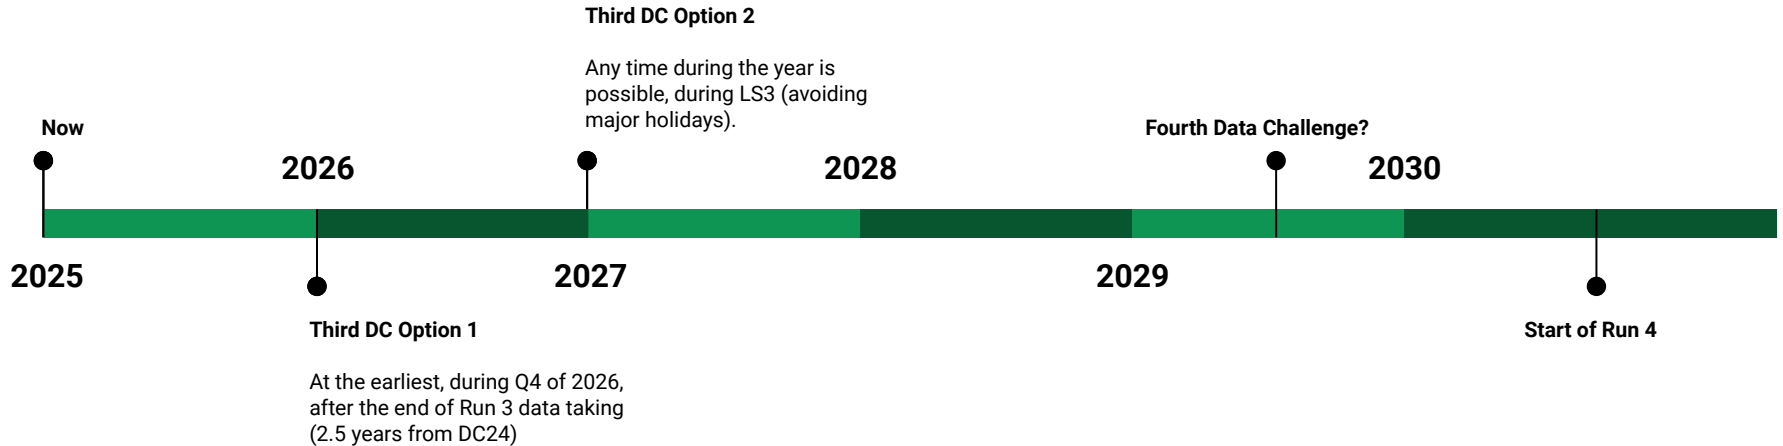

- Katy and Johannes will have the opportunity to address the LHCC next Wednesday, during the WLCG session
- Presentation on the outcomes of DC24, community plans etc.
- Discussion of the challenges we (DOMA) face looking ahead to HL-LHC

BDT (Bulk data transfer) group

- This has not gone away! (it's just taking a break)
- Thanks to Petr Vokac for continuing as co-coordinator
- Thanks to Brian Bockelman and Maria Arsuaga Rios, who are stepping down
- We are searching for a second co-coordinator
 - Please let Johannes and Katy know if you would like to put yourself forward!

DC26 or DC27?

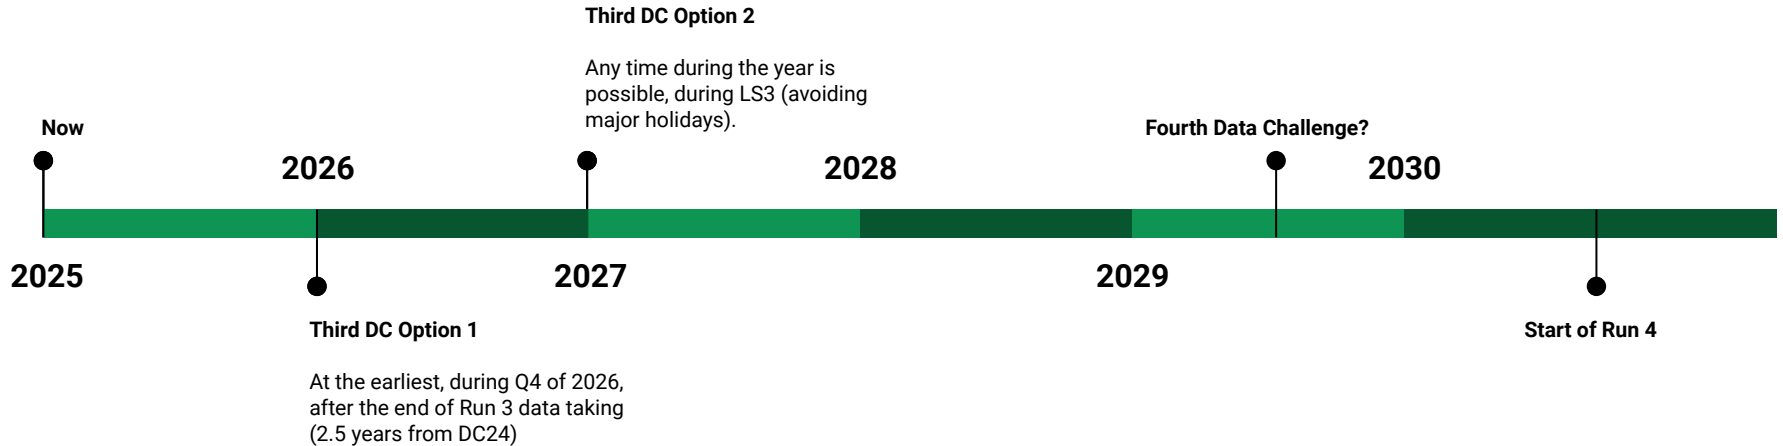

- We plan 2 more large-scale data challenges before the start of HL-LHC
- Current start date of HL-LHC is June 2030
- When should the next DC be? (50% of HL-LHC)

Sites prefer to procure hardware later; developers need time to address challenges

DC26 or DC27?

- We plan 2 more large-scale data challenges before the start of HL-LHC
- Current start date of HL-LHC is June 2030
- When should the next DC be? (50% of HL-LHC) Suggestion: Spring 2027

Sites prefer to procure hardware later; developers need time to address challenges

Today's schedule

14:30 → 14:40 **DOMA News**

Speakers: Johannes Elmsheuser (Brookhaven National Laboratory (US)), Katy Ellis (Science and Technology Facilities Council STFC (GB))

🕒 10m

14:40 → 15:00 **Upcoming mini challenge the UK**

Speakers: Alessandra Forti (The University of Manchester (GB)), Katy Ellis (Science and Technology Facilities Council STFC (GB))

🕒 20m

15:00 → 15:20 **Upcoming mini challenge in the US**

Speakers: Diego Davila Foyo (Univ. of California San Diego (US)), Shawn Mc Kee (University of Michigan (US))

🕒 20m

15:25 → 15:40 **Highlights from the XRootD workshop**

The workshop took place in September 2024. This talk will briefly summarise, with focus on future plans.

Speaker: Guilherme Amadio (CERN)

🕒 15m

15:40 → 15:55 **Highlights from the FTS workshop**

Speaker: Mihai Patrascoiu (CERN)

🕒 15m

Next DOMA Generals

- Possibility to have a meeting 4th December
 - 11th is WLCG Sustainable Computing meeting; 18th is close to holiday shutdowns
 - Does anyone have something to present?
- Tentative meeting scheduled on 15th January 2025 - TBC
