

EMI_datalib

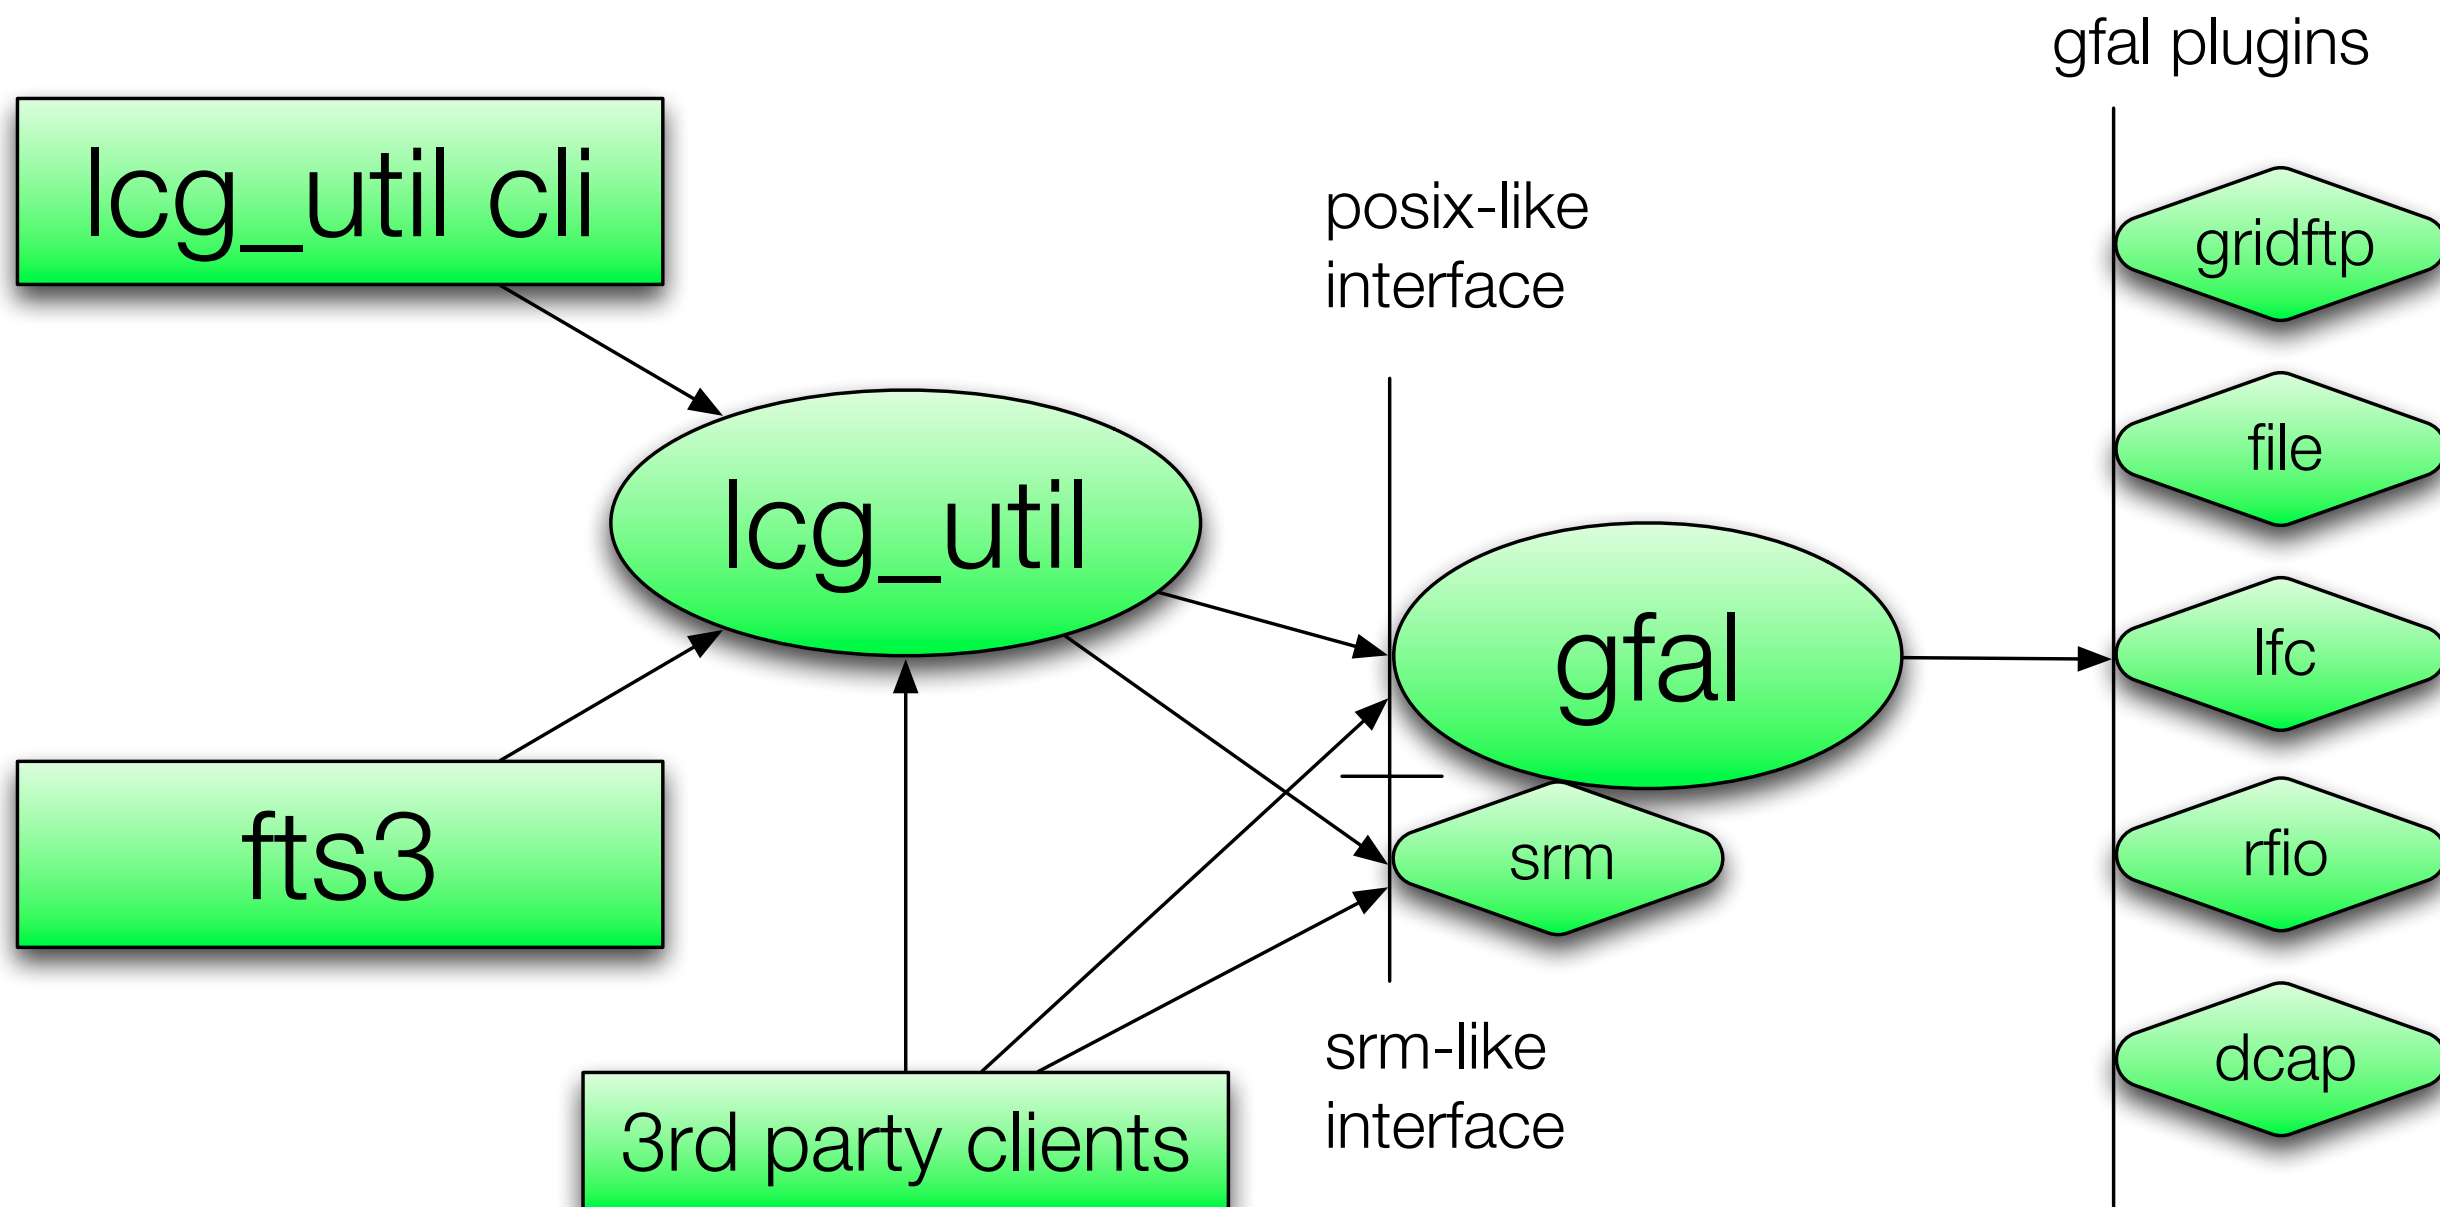

short summary

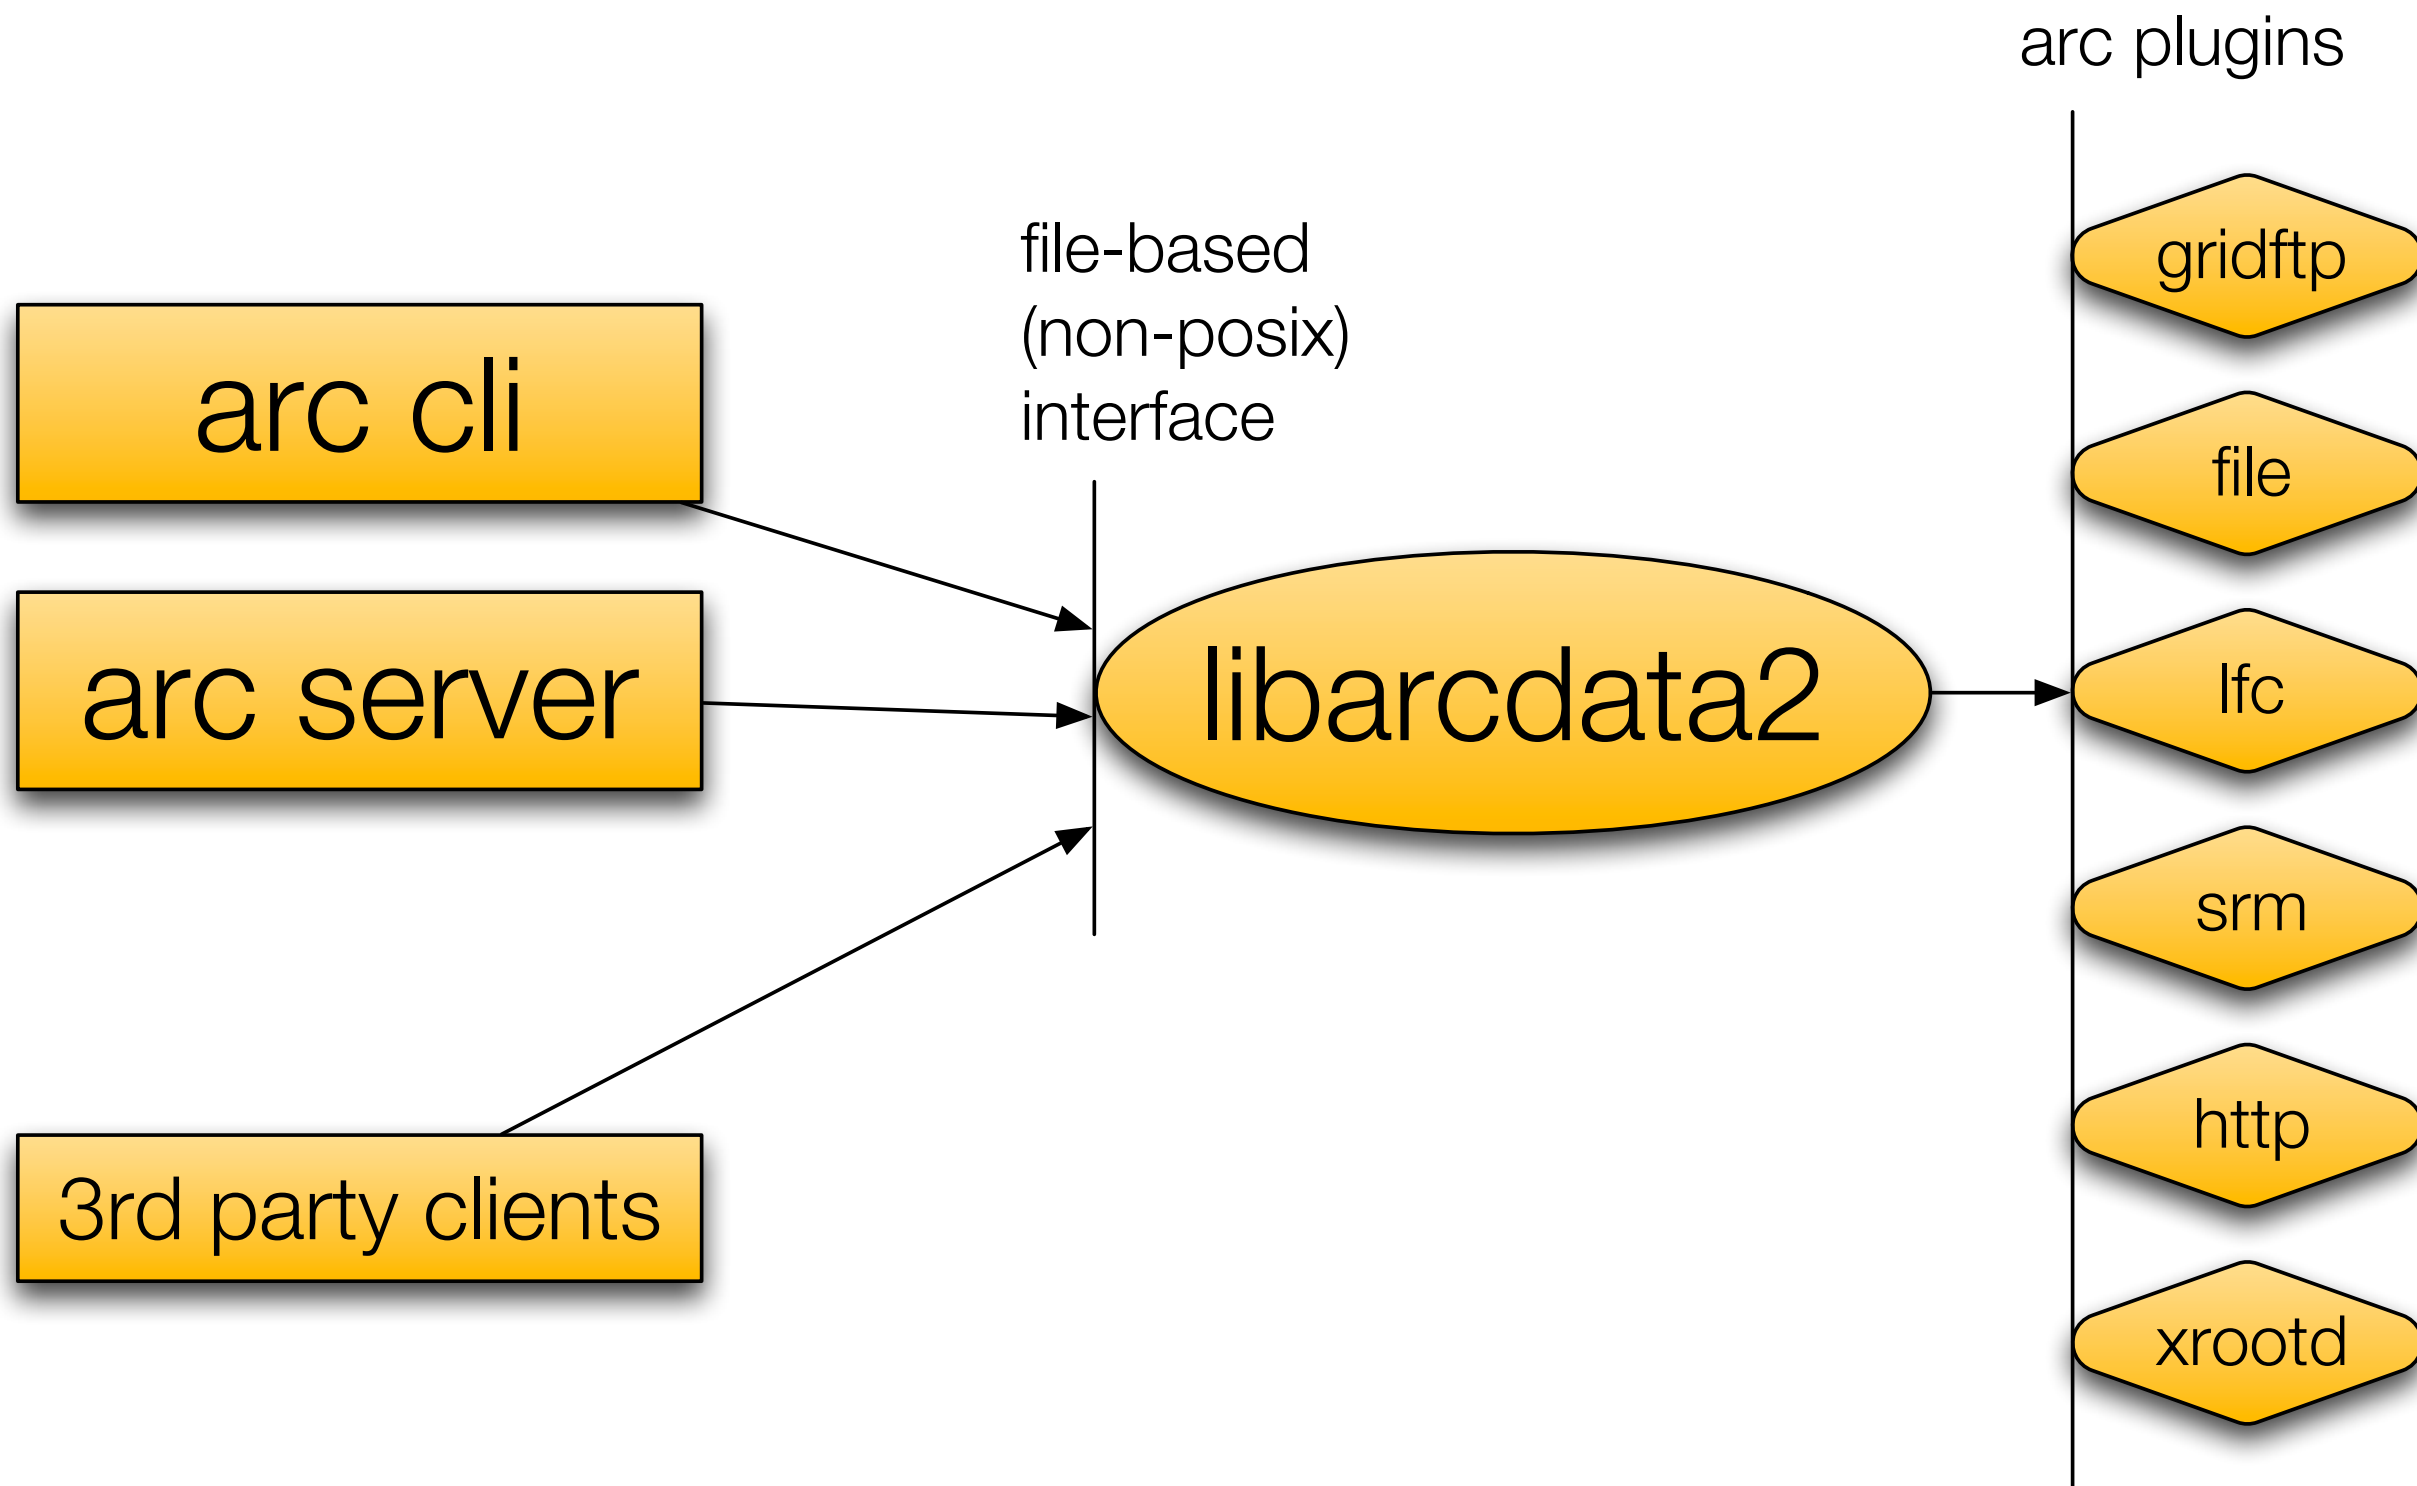

Jon Kerr Nilsen, Univ. of Oslo

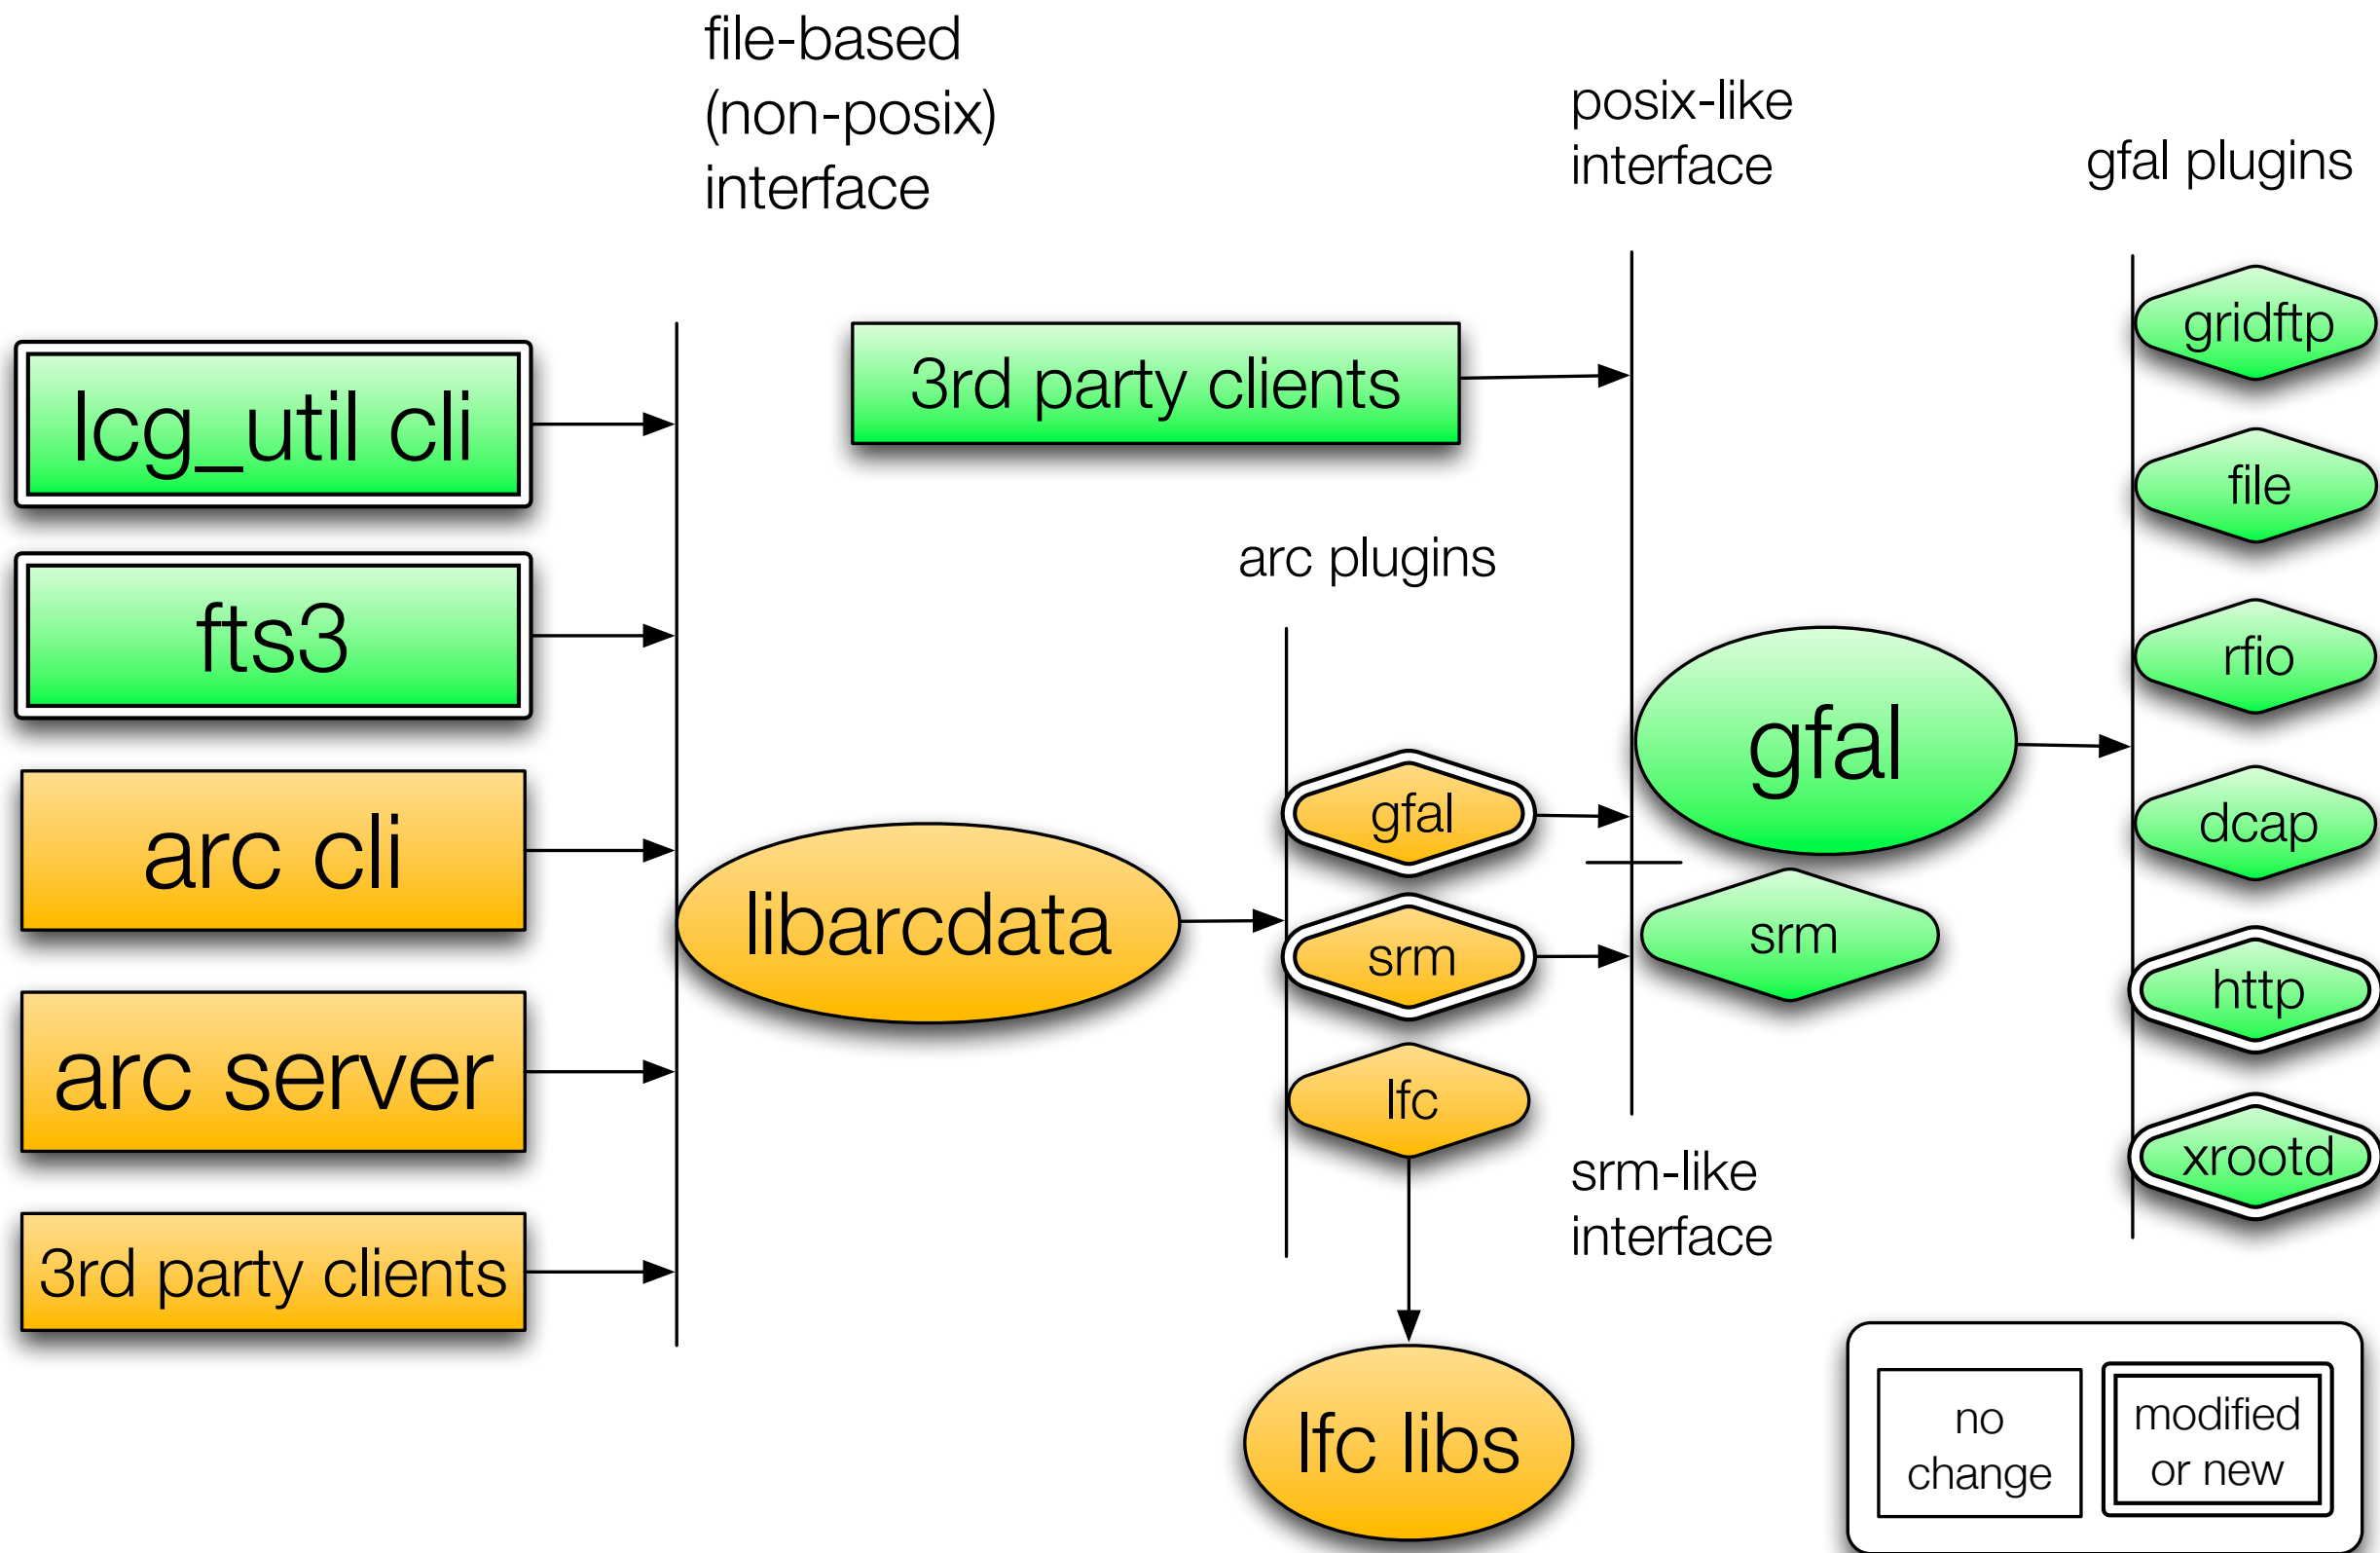

EMI AHM, Padova Oct. 2011

EMI is partially funded by the European Commission under Grant Agreement RI-261611

- What we have
 - lcg_util/GFAL
 - ARC data tools/libarcdata
- What we'll make
 - EMI_datalib
- Way forward
 - Expected timeline

- EMI_datalib task force
 - Zsolt, Michail (replaced), Zsombor

- EMI_datalib task force
 - Zsolt, Michail (replaced , Zsombor
- Two telcons, two F2Fs @ CERN
 - CERN data and ARC DM present at all meetings
 - F2Fs very constructive - much progress was made
 - Stuffing a bunch of expert into a small room for a day *can* give results

- EMI_datalib task force
 - Zsolt, Michail (replaced), Zsombor
- Two telcons, two F2Fs @ CERN
 - CERN data and ARC DM present at all meetings
 - F2Fs very constructive - much progress was made
 - Stuffing a bunch of expert into a small room for a day *can* give results
- Plan presented
 - at EGI TF at Lyon
 - at NorduGrid tech meeting in Kiev
 - Received no wild protests

 - F2Fs very constructive - much progress was made
 - Stuffing a bunch of expert into a small room for a day *can* give results
- Plan presented
 - at EGI TF at Lyon
 - at NorduGrid tech meeting in Kiev
 - Received no wild protests
- Draft is available on TF wiki page
- Working session this afternoon
 - Aim to finalize plan → **now** is a good time for input

- October 2011: Deliver consolidation plan in EMI
 - Draft exists - main ideas ready
- December 2011: Finish prototype implementation
 - Prototype should be ready for EMI-2
 - Merging two data access libraries in 2 months - delays may occur
 - Initial work already started
- 2012: Testing
 - Lots of testing needed to arrive to production ready code
 - Affected components: FTS and ARC CE
 - Any testing help appreciated!
- December 2012: Finish migration to EMI_datalib

See talk tomorrow
