VOMS planned developments

Andrea Ceccanti (INFN)
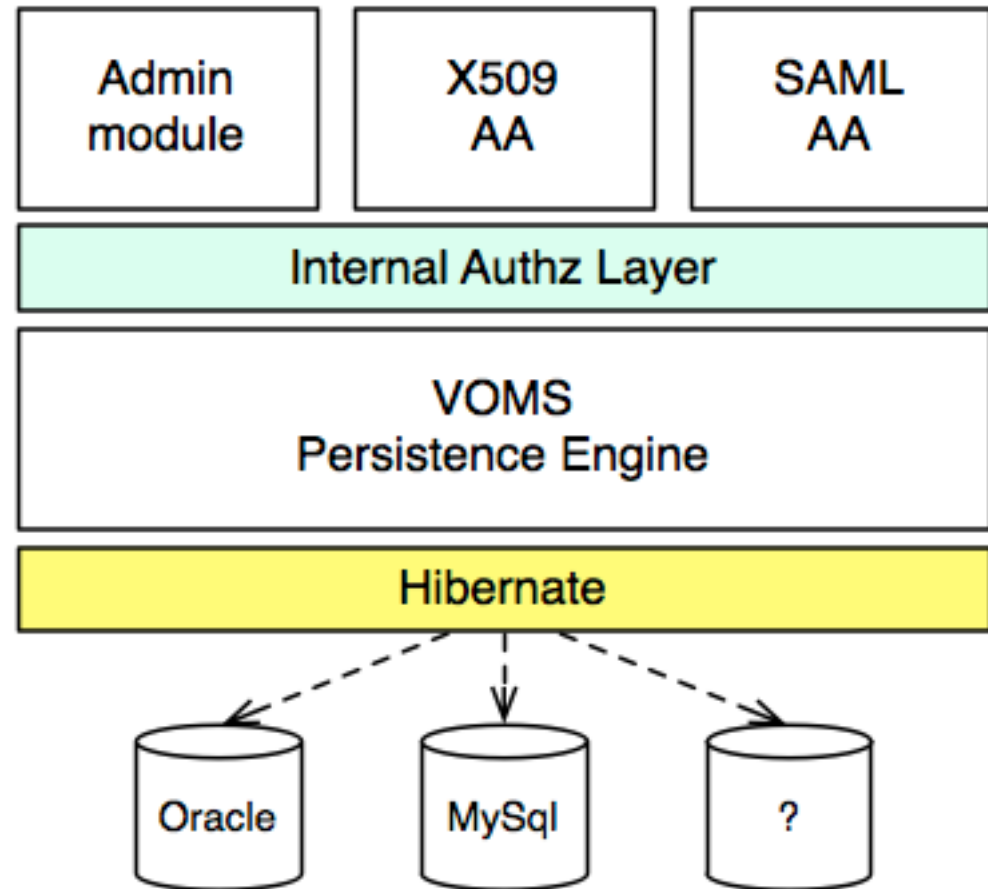

VOMS PT

VOMS & VOMS Admin

- EMI 1 work (release before christmas)
  - fix issues reported in EMI 1 deployments
  - EMI packaging of VOMS nagios probes
  - More VOM(R)S convergence work
    - some of the high priority items from this list
      - http://bit.ly/vomrs-convergence
  - Implementation of the final version of the EMI VO SAML profile
  - EPEL compliant packaging of voms-admin-client

- EMI 2 work
  - Build restructuring
  - SL6 & Debian porting
  - More VOM(R)S convergence work

Longer term work

- Unify the VOMS and VOMS Admin services codebase
  - reuse lots of code
  - simplify support, mainteneance, evolution and operation

- SAML AA evolution
  - support for SAML authn assertions

Thank you
