EMI SA2 Summary

Alberto AIMAR, CERN

SA2, WP Leader

EMI AHM, Padova Italy

EUROPEAN MIDDLEWARE INITIATIVE

- Reporting only the main SA2 points agreed and discussed during the SA1+SA2 and SA2 sessions.

- Not reporting and repeating the actions and comments already presented or agreed in the plenary sessions

EMI INFSO-RI-261611

SA2: Policies and ETICS

- POLICIES
  - Changes for multiple platforms to policies, dashboards, reports
  - All platforms in one single task for release changes to trackers
- ETICS
  - Central place updated to tell which client to use for each build
  - How to set up a local build node fully configured, how to get locally non-standard versions of the client
  - How to use your own spec file with ETICS
  - Mock build option used should be available to the users
  - Generation of multiple rpm implemented and documented
  - How to insert custom scripts in the ETICS execution (post-install, pre-remove scripts, etc)

SA2: Testbed, Metrics, QC

- TESTBEDS
  - Clarify probes on the testbed and integration with EGI
  - Clarify RC installation and Testing repository on the testbed
  - Multiple platforms on the testbed (Tools? Frozen VM?)
- Metrics and QC
  - Immediate RfC for Arc and Unicore are not really immediate
  - Severity gLite unset in MANY RfC
  - Regression testing for high priority bug "associated test" will become mandatory
  - Start adding QA tasks for PTs in EMT tracker (with ok from RM)
  - Security training is going to be needed
  - Rpmlint: current status

Rpmlint: Current Status

- ## Changes needed for Compliance

Total RPM Lint Error Messages Exhibited	Percentage Components showing errors	Running Total
1	1.9%	1.9%
2	32.57%	34.47%
3	14.67%	49.14%
4	11.81%	60.95%

Description of Top Errors	Number of Components Affected	Number of Errors
No Signature	525	525
No changelog name tag	457	457
Description line too long	130	136

Thank you
