Computer Security Update

Wednesday 2 April 2025 11:55 (20 minutes)

This presentation aims to give an update on the global security landscape from the past year. The global political situation has introduced a novel challenge for security teams everywhere. What's more, the worrying trend of data leaks, password dumps, ransomware attacks and new security vulnerabilities does not seem to slow down.

We present some interesting cases that CERN and the wider HEP community dealt with in the last year, mitigations to prevent possible attacks in the future and preparations for when inevitably an attacker breaks in.

Desired slot length

20

Speaker release

Yes

Author: LUNA DURAN, Jose Carlos (CERN)

Presenter: LUNA DURAN, Jose Carlos (CERN)

Session Classification: Network & Security

Track Classification: Networking & Security
