Nikhef is renovated. So what to do with our new meetingrooms technology-wise?

Monday 31 March 2025 16:40 (20 minutes)

Nikhef has recently renovated their building and upgraded almost everything to the latest standards. Including the Audio/Video setup in the new meetingrooms.

This talk will give an insight in the proces from choosing which technologies and tendering to installation, testing and getting everything working. What went wrong and what not. How you would think that 4K 60Hz is easy these days. Why a Playstation 5 is very important to have for this project. Building a setup that is easy, flexible and robust to use for a diverse set of users.
