KEK Site Report

Monday 31 March 2025 09:45 (15 minutes)

KEK is promoting various accelerator science projects by fully utilizing the electron accelerator in Tsukuba and the proton accelerator in Tokai.

These projects require a large amount of data processing, and our central computing system, KEKCC, takes a key role in their success. KEKCC

also has an aspect that works as part of the Grid system, which is essential to the Bell II project.

We will report on the operational status of KEKCC and our campus network systems, and related activities, such as security operations.

Desired slot length

10

Speaker release

Yes

Authors: IWAI, Go (KEK); Dr MURAKAMI, Koichi; YONAMINE, Ryo (KEK); SUZUKI, So; NAKAMURA, Tomoaki; KISHIMOTO, Tomoe

Presenter: YONAMINE, Ryo (KEK)
