

## **Introduction and News**

WLCG DOMA general meeting

CERN

04 December 2024

Katy Ellis (STFC, RAL), Johannes Elmsheuser (BNL)

- Petr Vokac and Mihai Patrascoiu agreed to co-convene WLCG DOMA BDT (bulk data transfers) effort starting in the new year
  - Please watch out for their meeting announcement on the [wlcg-doma-bdt@cern.ch](mailto:wlcg-doma-bdt@cern.ch) and [wlcg-doma@cern.ch](mailto:wlcg-doma@cern.ch) mailing lists
- Presented WLCG DOMA status (mainly DC24 results and future plans) together with WLCG TCB+OTF and Token transitions plans at last WLCG LHCC meeting (19 Nov)

# WLCG DOMA mini data challenges

- As discussed in the previous meeting mini data challenges are on-going in the US and UK
- Dates documented on new twiki page <https://twiki.cern.ch/twiki/bin/view/LCG/DomaMiniChallenges> and GoogleCalendar (link on twiki)
  - Will (hopefully) hear about results at one of the next DOMA meetings
  - Please feel free to add links to results on that twiki page
- Please feel free to add dates of upcoming mini data challenges on that twiki page
- Other areas: if you plan a mini data challenge in the near future, please contact us or present your plans in future meetings
