Session Program

3–5 Feb 2025

ALICE, ATLAS, CMS & LHCb Third Joint Workshop on DAQ@LHC

Control & Configuration

Château de Bossey (20 km from CERN)

Tuesday 4 February

16:00

Control & Configuration
Session | **Location:** Château de Bossey (20 km from CERN) | **Conveners:**
Luis Granado Cardoso, Alina Corso Radu

16:00–16:25 **Current and future Detector Control Systems overview (20'+5')**

Speaker
Fernando Varela Rodriguez

16:25–16:50 **Current and future DAQ/Run control overview (20'+5')**

Speaker
Michal Tichak

16:50–17:10

Detector Front-End Electronics control integration/Configuration (15'+5')

Speaker
Luis Granado Cardoso

17:10–17:30 **Operational/Control data archiving and visualisation (15'+5')**

Speaker
Hannes Sakulin

17:30

Wednesday 5 February

16:00

Control & Configuration
Session | **Location:** Château de Bossey (20 km from CERN) | **Conveners:**
Alina Corso Radu, Luis Granado Cardoso

16:00–16:20   **The value and challenges of uniformity in control systems (15'+5')**

Speaker
Clara Gaspar

16:20–16:40   **ATLAS EF farm management using Kubernetes in Phase-II (15'+5')**

Speaker
Matteo Ferrari

16:40–17:00

Data Acquisition with SoC/SoM for the Phase-2 Upgrade of the LHC (15'+5')

Speaker
Ralf Spiwoks

17:00
