

# HEP Tech

## The High Energy Physics Technology Transfer

*Close Network including all relevant High Energy Physics organisations in Europe*

### *Our offer*

*Two Best Practice Workshops per year on KT/TT in HEP current topics*

*HEPTrepreneurs event series: awareness-raising and networking event for entrepreneurship in HEP: keynote speeches, training offers on soft skills in entrepreneurship and more.*

*Invitation to events and trainings from associate*

*Moreover HEPTech is..*

... a network whose objective is to enhance technology transfer from fundamental research in physics to society.

... operated by technology transfer professionals from large scale High-Energy Physics (HEP) science projects and research facilities in Europe.

... a place where members work together to share best practice and experience to maximise the socio-economic impact of IP generated and facilitate commercial exploitation of both the skills and technologies developed across large-scale HEP science projects

... the chance to actively shape the network itself and its topics as a board member, the chance to meet the Knowledge and Technology Transfer officers from the member institution and exchange experiences
