

# **GaN Proposal Status**

# GaN Proposal Status

- Latest version is on CDS document CERN-DRD3-PROJECT-2024-001 and can be found here: <http://cds.cern.ch/record/2904210>
  - Note there are 2 project phases, emphasis now on Phase 1
- 7 institutes besides Carleton/NRC have indicated willingness to participate
  - Have also received expression of interest from Ioanna Pintille (NIMP\_
  - Interest in GaN material defect characterization
- Have updated draft using new tables from the latest MoU template iteration
- Added latest cost estimates and institute updates
  - These have remained fairly stable in the past ~2 months
  - Received input from all participants – thank you for your help with this
- Next CDS update will include tables (for annex 7) with current institute resources/FTE commitments
  - Please let me know whether this is OK
