

FCC Early Career Forum

Welcome by the organisers

Organisers:

Andreas Gsponer (Austrian Academy of Sciences), Armin Ilg (University of Zurich),
Elisabeth Renner (Technische Universität Wien), Jacqueline Keintzel (CERN),
Maximilian Babeluk (Austrian Academy of Sciences), Sarah Louise Williams (University of Cambridge)

Idea behind FCC Early Career Forum

What is it?

- A place to meet other early career researchers (ECRs) working or interested in FCC

Who is it for?

- Whoever identifies as an early career researcher :-)

What are the goals?

- Strengthen the FCC ECR community
- Enable exchange between ECRs of different backgrounds (theo., exp., engineering, accelerator, etc.)
- Keep ECRs up to date on important matters, potentially act as an ECR voice

Today: *FCC Beginners Guide*

10:02 → 10:17 **The EPPSU**

Speaker: Karl Jakobs (University of Freiburg (DE))

10:20 → 10:30 **FCC study status**

Speaker: Alain Blondel (Universite de Geneve (CH))

10:35 → 10:50 **Why do we need yet another collider?**

Speaker: Maria Pestana Da Luz Pereira Ramos

10:55 → 11:10 **How do we collide the beams in the future?**

Speaker: Kyriacos Skoufaris (CERN)

11:15 → 11:30 **How to build a future collider?**

Speaker: Francesco Franesini (INFN e Laboratori Nazionali di Frascati (IT))

11:35 → 11:50 **How to get histograms?**

Speaker: Armin Ilg (University of Zurich)

11:55 → 12:00 **Next Steps of FCC Early Career Forum**

Speakers: Armin Ilg (University of Zurich), Jacqueline Keintzel (CERN)

12:05 → 12:15 **ECR involvement in EPPSU**

Speaker: Krzysztof Mekala

Thank you
for your attention.
