

Session Program

8-12 Sept 2025

Low-x 2025

***Diffraction and gamma gamma physics
session I***

Medulin, Croatia

Wednesday 10 September

09:00

Diffraction and gamma gamma physics session I

Session | Location: Medulin, Croatia,

09:00–09:30 **Prospects of CEP studies at the LHC**

Speaker

Valery Khoze

09:30–10:00 **Recent PPS results and prospects**

Speakers

Istvan Szanyi, Mr István Szanyi

10:00–10:30

Overview of ATLAS forward proton detectors: status, performance and new physics results

Speaker

Maciej Trzebinski

10:30
