

Welcome to Madison! We are looking forward to hearing excellent presentations and connecting with colleagues.

The LP-2025 symposium will feature a broad range of topics of interest to the particle physics, cosmology and particle astrophysics communities. Presentations will include the latest experimental results from current experiments, R&D towards future facilities, and theoretical developments. There will be plenary talks providing summaries of the state of the field, detailed reports in the parallel talks, and topical results in poster sessions.

The QR codes below will take you to the conference timetable as well as to the Google Play or App Store to download the conference app, HEPCon.

All events for the conference will be taking place on the same floor you registered on, with the exception of:

- The Monday roof-t<sup>2/3</sup> reception, picture, and cake cutting will be held on the Monona Terrace rooftop starting at 5:30.
- CERN DG-Designate Mark Thomson's public lecture, held Tuesday at 6:30pm, is taking place on the UW-Madison campus at the Memorial Union, 800 Langdon St. It is just over a one-mile walk. We have students who will meet you outside the plenary lecture hall and will lead walks to campus. Uber, Lyft, and Union Cab are also quite reliable, and you can use Google Maps to check bus schedules.

We hope you have a great week!  
–The organizing committee

## Requests

- If you are presenting a talk (parallel or plenary)
  - Upload your talk at least 1-hour before the start of your session
  - Your allocated time on indico includes Q&A period
    - 25+5' for plenary talks
    - 17+3' or 15+2' for parallel talks
- If you are presenting a poster
  - Pin your poster to the easels in Room MNQR as soon as possible
    - Be present in MNQR for poster competition on Thursday 18:00-19:00
    - Posters can be taken down on Friday
  - Upload your poster PDF as soon as possible

## Code of conduct

Participants of the Lepton-Photon 2025 conference are required to comply with the American Physical Society code of conduct adapted for this conference and published on the conference site:

<https://agenda.hep.wisc.edu/event/2188/page/87-code-of-conduct>

The policy of the Lepton Photon 2025 conference, as for all events sponsored by International Union of Pure and Applied Physics (IUPAP), is that all participants should enjoy a comfortable experience, and that they will always treat each other with respect and behave professionally. In case of bad behavior, including personal harassment, the conference organizers may, after due consideration, take such action they deem appropriate, including warning or expulsion from the conference. If you feel that you have suffered from harassment while attending this conference, please contact:

- Sridhara Dasu: [dasu@hep.wisc.edu](mailto:dasu@hep.wisc.edu)
- Tulika Bose: [tulika@hep.wisc.edu](mailto:tulika@hep.wisc.edu)

This applies both to the live discussions during the conference sessions as well as in the chat room.
