LHCbDirac is a DIRAC extension to support LHCb specific workflows

- Productions
- Data Management
- Users
- Testing

Data Management Workflow:
- replication
- removals
- archival
- checks

LHCbUsers

Productions Workflow:
- request
- submission
- monitoring

Production Templates

Testing Workflow:
- SAM jobs
- tests for space usage
- availability of resources.

LHCbDirac APIs (extension of DIRAC APIs)

LHCbDirac Transformation Sys (TS) (extension of DIRAC TS)

LHCbDirac WMS (extension of DIRAC WMS)

LHCb and DIRAC Resource Status (RMS)

LHCbDirac Resources abstraction (extension of DIRAC Resources abstraction)

DIRAC Computing

LHCb and DIRAC Storage

F. Stagni, on behalf of the LHCb Collaboration
