

Introduction and News

WLCG DOMA general meeting

CERN

15 January 2025

Katy Ellis (STFC, RAL), Johannes Elmsheuser (BNL)

Happy New Year !

- ATLAS, CMS and LHCb software and computing weeks on 3-7 Feb 2025
 - Please let us know if there is something interesting to share and discuss at these meetings

WLCG DOMA mini data challenges and 50% data challenge

- Recent mini data challenges
 - Some details from recent UK and US mini data challenges documented at <https://twiki.cern.ch/twiki/bin/view/LCG/DomaMiniChallenges>
 - Please feel free to add dates (and results) of upcoming mini data challenges in the coming months on that twiki page
- DC27
 - As mentioned in the November 2024 DOMA meeting we suggested to have the “50% HL-LHC” in spring 2027 instead of 2026 due to the HL-LHC schedule change
 - Not officially confirmed, but we pass on the message to the WLCG
