

Session Program

18-22 May 2026

**24th Conference on Flavor Physics and CP
Violation (FPCP 2026)**

g-2 & charged leptons

Tuesday 19 May

08:30

g-2 & charged leptons

Session**08:30–09:00 g-2 Theory****Speaker**

Simon Kuberski

09:00–09:30 g-2 Experiment**Speaker**

Matteo Sorbara

09:30–10:00 Tau decays**Speaker**

Michele Mantovano

10:00–10:30 Current and Future Charged Lepton Flavour Violations Searches**Speaker**

Prof. Niklaus Emanuel Berger

10:30

11:00

g-2 & charged leptons

Session**11:00–11:30 Experimental results relevant for g-2 dispersion relation predictions****Speakers**

Qingyuan LIU, Qingyuan Liu, Qingyuan Liu

11:30–12:00**New precise measurement of e^+e^- to $\pi^+\pi^-$ with BABAR for muon g-2 prediction****Speaker**

Fabio Anulli

12:00
