

## **Session Program**

**10-12 Mar 2025**

## **LumiDays 25**

### ***Luminometer non-linearities and integration uncertainties***

CERN, 774/R-013

## Wednesday 12 March

11:30

### Luminometer non-linearities and integration uncertainties: 4A

**Session** | **Location:** CERN, 774/R-013 | **Convener:** Martino Gagliardi

11:30–11:45

#### Uses of Emittance Scans and Planning for 25-26

**Speaker**

David Stickland

11:50–12:20

#### Long term stability, non-linearity corrections, integration methodologies and systematic uncertainties in CMS

**Speaker**

Francesco Romeo

12:30

14:00

### Luminometer non-linearities and integration uncertainties: 4B

**Session** | **Location:** CERN, 774/R-013 | **Convener:** Martino Gagliardi

14:00–14:25

#### Calibration-transfer and long-term stability in ATLAS: corrections & systematic uncertainties.

**Speaker**

Giulia Ripellino

14:30
