# Training for supporters

*Mário David*
*LIP - Lisbon*

**www.eu-egee.org**

Information Society
and Media

- **Link to training from GGUS portal:**
  - Contains material from previous tutorials.
  - Soon will contain the material for the next event.

- **Next training event:**
  - 2$^{nd}$ October @CERN (next Monday) agenda: http://indico.cern.ch/conferenceDisplay.py?confId=a063200
  - Registration / logistics: NA3.
  - 10 people registered (including the trainers).

- **Monthly plan offering training:**
  - Link to registration in these events available in: https://gus.fzk.de/pages/training.php
  - 6 – 7 November @FZK
  - 4 – 5 December @FZK

**eGee**

- **The events are divided into two half-days:**
  - 1$^{st}$ half will give a "User perspective" interacting with the GGUS system
  - 2$^{nd}$ half will give a "Supporters perspective"
  - Both are subdivided into a "presentation" session and a "hands on session"

Enabling Grids for E-sciencE

- **The training material is not only useful for the participants but also should be widely publicised and used by others not participating in these events.**

- **Particularly TPM team members, although they are getting quite experienced, but also and specially, the 2$^{nd}$/3$^{th}$ level Support Units and ROC's.**

- **Its clear that there are still a high number of "bad practices".**

- **You can still "show up" even if you are not registered**
