Progress on first user scenarios

Wednesday 27 September 2006 14:30 (30 minutes)

This contribution will describe progress to date on the first group of user scenarios which will comprise the output of the user Information group in EGEE-II. These are intended to provide easy, user-friendly access to user information covering EGEE operations from beginner to advanced user level.

Primary authors: WHITE, John (CERN); BURKE, Stephen (RAL)

Presenter: BURKE, Stephen (RAL)

Session Classification: Network Activities (NA2, NA3, NA4)
