

# SEE-GRID-2

## *Regional Grid projects concertation workshop*

# Panel: some thoughts

SEE-GRID  
South Eastern European GRid-enabled  
elInfrastructure Development

- No network => No GRID !
- Relevance and future of the regional projects; Coordination of efforts;
- NGIs as the vehicle towards sustainability
  - Involvement of the government
  - Coverage of user community; inclusiveness
  - Path from project-based to institutional financing
  - Wider associations; federations, EGI
- Achieving the critical mass of
  - People: human network of grid-aware experts, wider user community
  - Hardware: funding from local/national/regional/EU projects
- Best (worst) practices
