

1 Peter Fackeldey

- Finished PhD ~1y ago at RWTH Aachen University
- Analysis experience in CMS mainly HIG: $H \rightarrow WW$ and $HH \rightarrow bbWW$
- Started PostDoc with Princeton University in September 2024 mainly focussing on IRIS-HEP (analysis systems)
- My plans and work items:
 - Making coffea analyses more robust and efficient
 - Improving user-experience with awkward-array and dask-awkward
 - Interested, but not yet started: developing statistical tools
- Other:
 - Recently became a PyHEP convener
