

Session Program

6-9 Oct 2025

Beyond Standard Model: From Theory to Experiment (BSM- 2025)

Session 3

Sabancı University Karaköy Communication Center
Sabancı University Karaköy Communication Center, Karaköy, İstanbul (European side of İstanbul)

Tuesday 7 October

14:30

Session 3

Session |**Location:** Sabancı University Karaköy Communication Center, Sabancı University Karaköy Communication Center, Karaköy, İstanbul (European side of İstanbul) |**Convener:** Ryu Sawada

14:30–15:00

Highlights on Higgs physics with ATLAS

Speaker

Khuram Tariq

15:00–15:30

Highlights of recent electroweak and QCD measurements in ATLAS

Speaker

Yanwen Liu

15:30–16:00

Searches for new phenomena beyond the Standard Model using the ATLAS detector

Speaker

Hitarthi Deepak Pandya

16:00–16:30

di-Higgs as a probe of BSM physics

Speaker

Stefano Moretti

16:30
