

## **Session Program**

**27-28 Feb 2025**

# **DRD1 Topical Workshop on Detector Manufacturing and Production**

## ***Existing Manufacturing and Production Facilities***

CERN, 160/1-009

## Thursday 27 February

17:00

### Existing Manufacturing and Production Facilities: Chair Eraldo

**Session** | **Location:** CERN, 160/1-009

17:00–17:20

#### Production facilities of wire chambers in Grenoble and Caen

**Speakers**

Jean-Francois Muraz, Sébastien HERLANT

17:20–17:40

#### The CERN/INFN DLC Sputtering Machine

**Speakers**

Gianfranco Morello, Dr Giovanni Bencivenni, Karl Jonathan Floethner, Mauro Iodice, Rui De Oliveira, Serge Ferry

17:40–18:00

#### Thin Film Coating and Glass (TFG) Facility at CERN

**Speaker**

Thomas Schneider

18:00–18:20

#### MPGD Workshop at IRFU/CEA Saclay

**Speaker**

Brahim Alain Moreno

18:20

## Friday 28 February

08:30

### Existing Manufacturing and Production Facilities

**Session** | **Location:** CERN, 160/1-009

**08:30–08:50** **Production Facility at Weizman Institute of Science (wire)**

**Speakers**

Gil Cohen, Meir Shoa

**08:50–09:10** **Welding Straw Technology / JINR and Kazakhstan**

**Speaker**

Temur Enik

**09:10–09:30** **Status of RPC facilities in Korea**

**Speaker**

Prof. Kyong Sei Lee

**09:30–09:50** **GEM production in Korea**

**Speaker**

Dr Dong Hyun Kim

**09:50–10:10** **New RPC facilities at MPI and satellite companies**

**Speaker**

Dr Francesco Fallavollita

10:10
